

CODE EXERCISE

WHILE AND DO...WHILE LOOPS

Create a new .html file with script tags as demonstrated in the video. Inside the script tags create loops that do the following:

- 1) Count from 100 to 100 by 10's
- 2) Count from 100 to 0 displaying only the odd numbers
- 3) Print 10 rows of asterisks. In the first row print one, in the second row two and so on until you print ten asterisks in the 10th row.

Test each loop and debug as required to obtain the correct result.

SUBMITTING EXERCISES

To earn certification all exercises must be submitted and accepted.

1) When you've completed all of the HTML exercises, please zip them into a single file and submit to our Dropbox at <http://bit.ly/CWDP2324>.

2) Next, fill out the certification completion form at <https://forms.gle/5EiUGCM6dGd1F2Py6>.

Remember, that all of your exercises for each module should be included in a separate zip file.

GETTING HELP

We always want to ensure that your questions are answered. There are a number of ways to get in touch.

1) We operate a lively Discord server. Join us at <https://discord.gg/tgxX2fCrv5> and you can ask your question on Discord. Mark and our team of instructional assistants monitor this Discord and answer questions ASAP.

2) This certification program is offered on several platforms. Most platforms have a Q & A section where you can post questions. We monitor these and respond as quickly as we can.

3) You may use our question hotline email at questions@dollardesignschool.com.

Remember to always to include which section your question is from and send any code you're working on!
